Ye scribe had the pleasure a few evenings ago of hearing Ada Williams, the peerless musician, render some choice music on the organ. The party stopped over night, and early in the morning resumed their journey towards Hazel Green.

of Illinois.

FOR GOVERNOR,
J. C. W. BECKHAM,
of Nelson County.

FOR CONGRESS,

Under the most favorable auspices the largest enrollment on the opening day of Hazel Green academy heretofore was 69, and the recent adverse circumstances led many to believe that never again could that figure be reached. But the friends of Prof. Cord sometime since avowed their determination vindicate his reputation as a teacher, and the result is told in the enrollment of Monday which was 90, 21 more than ever showed up on the first day. The C. W. B. M. by its action in transferring its principal patronage to the Morehead school was calculated to throw a damper upon the prospect of Hazel Green academy and Prof. Cord as well, and the professor's friends felt that since that gentlemen had spent 10 years in earnest endeavor to establish Hazel Green academy as the leading educational institution of Eastern Kentucky his efforts should meet with proper endorsement. Hence they went to work with a will, and every man, woman and child in this section became a living advertisement for the academy, and sang its praises of praise whenever and wherever opportunity offered. Nor is this all. Ere another week it is confidently hoped and expected that the enrollment will reach at least 125. Not only has the academy become a household word among the people here and hereabout, but its fame as a seat of learning has reached other states and territories, with the result that many will matriculate from states far away. Elsewhere we record the names of four who will matriculate this week or next, and there are more to follow. Let the good work go on, and let everybody put his or her shoulder to the wheel and give it a push.

If interested in horses, cows or sheep, take the Farm Journal. It is a wonderfully good little paper and you ought to take it. We can send THE HERALD one year and Farm Journal, nearly 5 years, remainder of 1900, all of 1901, 1902, 1903 and 1904, to every one who will subscribe for THE HERALD; both papers at the price of ours only 65 cents.

FOR SALE—A scholarship in the Commercial College of Kentucky University. By early application at this office some young man can save several dollars.

That the Powers case was a costly one there is no doubt, as here are some of the bills: The jurors were paid \$2 a day for their services and a dollar a day additional was paid for the board of each, making \$21 a week for each man. They were on duty 38 days, making a total cost of \$1,368 for jurors. The fees of the commonwealth's witnesses, including their mileage, will amount to over \$10,000. The trial was the most celebrated and prolonged in the history of the state. It began July 9 and lasted five weeks and six days. In all 161 witnesses were examined, and 3,515 pages of type-written testimony was given from the stand. There were thirteen lawyers for Powers and eight for the commonwealth. The first testimony was heard on July 13 and the last witness for the defense left the stand on August 13. There was also \$1,300 in Powers' pocket when he was caught while on his flight to the mountains.

The telephone line to Lee City will be in operation by the latter part of this week or the first of next. It is not yet known where the box will be located at Lee City, as it will be let to the highest bidder, but it will be of great advantage to the man who controls it, as he will not only get his own messages free but its location naturally brings more or less trade.

James S. Williams, of Sellers, Morgan county, was here Tuesday evening, en route home from Torrent, whither he had been to take his sister, Miss Mattie Phipps, who left on the evening train for Danville to attend the deaf and dumb institute, in which she has been a student for three previous terms.

John Tyler, one of the candidates for jailer who was here last Saturday, in a talk with the editor said he was sanguine of success. His neighbors and those most intimately acquainted with him say he would make a model jailer.

I am in a position that I can not be at home all the time, but when I am at home I stay until I do all repairing that is left at my office. So bring your watches, clocks, sewing machines and get them repaired at reasonable prices, and in good style. You can leave goods at my home. Guarantee satisfaction. J. T. GEVEDON.

Mr. Fitzgerald, paymaster of the Ohio and Kentucky railroad, passed through here Sunday, en route to Torrent, to take the train for Chicago, whither he had been summoned to the bedside of his mother, who was said to be dying.

"WINITAR"
ONLY WHITE TAR SOAP
IN THE WORLD.

Winitar Soap is a luxurious and purified toilet soap and superior to the old black tar soaps in every way. It contains all the healing and antiseptic properties of the black tar soap, with entire freedom from their objectionable features. It is neither towel nor wash bowl, for its lather is snow-white. It lathers in hard or soft water, far more freely than other tar soaps, and being 100 per cent. pure, outlasts any of "the faked" soaps of equal size. It contains much more glycerine than other soaps, and this together with its soft thick lather make it a king among shampoo soaps. In the treatment of skin, scalp and hair diseases, aggravated cases of dandruff, scald head, falling hair, etc., Winitar is highly recommended. Physicians recommend it for babies' baths, and in cases of chafe or heat rash, the soap is peculiarly efficacious. Ask your dealer for it.

On Saturday and Sunday dinner will be served at the church. All neighboring churches and friends are kindly asked to bring well-filled baskets on these days. The members of the local congregation and their neighbors will take care of all delegates and persons from a distance each night. Nothing will be sold on Sunday, and only fruits and other eatables on Friday and Saturday.

Noah Cisco, accompanied by his brother, J. S. Cisco, and his cousin, Alonzo Cisco, arrived here Saturday evening and will again be employed as assistant teacher at the academy. The two young men who accompanied him matriculated in the academy on Tuesday and will attend the next ten months. Apropos, Mr. Cisco informs us that in Morgan county the academy has an impetus this year surpassing anything in the past, and he thinks the attendance from that county will be quite large. But it appears to be so with all sections. Every precinct in this county will increase its patronage and on the whole the outlook is better than ever before.

How To Gain Flesh

Persons have been known to gain a **pound a day** by taking an ounce of **SCOTT'S EMULSION**. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

Annual Offerings for Church Extension and Ministerial Relief.

On the fourth Sunday, September 23rd, the Christian church at Hazel Green will make its annual offerings to these two most worthy causes.

There are no other two divisions of our church work that appeal more directly to our people. "Church Extension" helps to house the houseless congregations that they, afterwards, may become helpers in this work of the Lord.

"Ministerial Relief" helps to take care of disabled ministers and their families. These men have borne the heat and burden of the day, and we have entered into their labors. We would most prayerfully urge and persuade every member of our congregation to make a liberal offering to these works. Remember the date—Sunday, September 23. Earnestly in His name.
Wm. H. Cord, Minister.

"Circumstances Alter Cases." In cases of dyspepsia, nervousness, catarrh, rheumatism, eruptions, etc., the circumstances may be altered by purifying and enriching the blood with Hood's Sarsaparilla. Try it. Hood's Pills cure biliousness, headache.

Some Sensible Advice.

Communicated to THE HERALD:

Representing the majority and voicing the sentiments of all the citizens of Wolfe county in whose homes THE HERALD is a welcome visitor, I desire to make a few suggestions in regard to newspaper correspondents, and their duties while connected with a country newspaper. I do this in the interest of humanity, and without any ill feeling toward any of the numerous correspondents.

THE HERALD is for the benefit of all and not an advertisement for any family, or a means for them to place themselves prominently before the public. As one who has had some experience in newspaper work, I want to make these suggestions so that you may be enabled to profit by them. The public don't want to know what some country swain told his sweetheart on his last visit, or which particular rib he broke when he "hugged her good bye." They don't want to know what girl Bill Smith's son Sam is courting, or whether it is serious or mortal.

The public don't want to read a thesis on the visitors of correspondent's family and friends, especially if they are minus the quality.

Mr. Correspondent, don't devote a column to yourself and what you do. Don't announce yourself as a candidate, and write yourself a "puff" sign your name de Plume, and think the public will remain ignorant of the fact.

Don't write about insignificant people; write the happenings of—and visits of prominent people to your vicinity. If you have a wedding to announce, do so, but don't say some one is going to get married—guess who. We know someone is going to get married, because if they didn't what would be our grandchildren and great grandchildren, etc. I say this for your good, take it easy and profit by it. Yours truly,

CORRESPONDENT.

Kelso Nickell, who was raised in this section but left here some 20 years ago and married in Wyoming, is expected here this week with son and daughter and two other young ladies, presumably sisters-in-law of Mr. Nickell, and the four young people will matriculate in Hazel Green academy for the next 10 months. Mr. Nickell visited relatives and friends here last year, and everywhere seeing the improvement wrought by the academy, at once determined to avail of its advantages for his own children.

Willie Caldwell, the 13-year-old son of Andy Caldwell, our fellow-countyman, on Wednesday left for Danville to enter the deaf and dumb institute at that place. He has never had the advantage of training of any kind until recently Charley Buchanan, the mute educated at Danville, has been giving him some instruction, and Charley says he is a remarkably bright boy. He thinks that with education and training he will prove an exception.

As Rev. W. E. Moore was riding along the road Monday afternoon, and just as he was in front of O. W. Cecil's residence, he was overtaken by Green B. Banks and Miss Nannie Ratliff, and requested Rev. Moore to marry them then and there in the middle of the road, showing him the marriage license. Mr. Moore then dismounted and made them man and wife. They then rode off as happy as two doves. Ova Swango and wife witnessed the ceremony.

The colored paintings of poultry in Biggle Poultry Book cost \$1,000 to paint and reproduce. The work was done by one of the leading live stock artists of the country. Biggle Poultry Book costs but 50c by mail; address the publishers, Wilmer Atkinson Co., Philadelphia.

Alf Miller and Breck Little, deeming it unwise to both make the race for jailer, as they lived in the same precinct, concluded to leave it to the voters of Lee City, the hindmost man to withdraw. They polled the vote, and Mr. Little being the strouger of the two, Mr. Miller withdrew.

The annual meeting of the Christian church will begin at Old Grassy church on Friday next, and several of our young people will be there. Noah Cisco and Curt Rose are arranging for a hack load.

OUR LETTER FROM THE ORIENT.

To the Hazel Green Herald.

PANQUE, P. L., July 30, 1900.

The island of Luzon is the largest of the Philippine groups. The fact coming before us, that we are in possession of a group of islands eight thousand miles from our seat of government, surrounded by several greedy powers, who are ready at any moment to gulp them; inhabited by a race of savage blacks, who are in a serious state of rebellion, and to make matters worse, who can not be trusted with self government is indeed a knotty problem. Our high officials do not seem to realize just where we are standing or just what we are doing. We seem to be drifting along with the tide regardless of every danger presenting itself.

Our attitude toward China is at present everything but pacific. Russia seems to be holding a dangerous hand; all in favor of our enemy, in fact we are on the very verge of a dangerous warfare. With these facts before us our position seems anything but pleasant. When Dewey won his laurels by destroying Montejos fleet and taking Manila, but few dreamed he was winding around us a net with threads of steel, and placing us in a position more critical than that of our forefathers in their heroic struggle against the power of a king at Lexington. Yet, notwithstanding our present predicament, we can not give way to a feeling of despair and lose all. The blow has been struck and we must fight it out. Our possessions are too wealthy to lose, our pride too great to relent. Our warfare is on, and we must support that power presiding over us, whether right or wrong. If we win, no doubt but what time assisted by untiring energy will bring us our reward.

The Philippines are unquestionably rich. The island of Luzon is noted everywhere for its hardwood timbers, hemp and rice; the finest mahogany, ebony and cinnamon species of the world are found here. The Manila rope is widely known everywhere, and is found in every state of the Union. The rice cultivation is steadily increasing, and since the oppressive powers of Spain have relinquished their hold upon lands and people, rice has advanced in price and demand. The sugar industry has become a paying investment; mills are going up all over the island, and the introduction of machinery is decidedly evident. Schools are being established in every known tongue and tribe. The greedy friar is being rudely, yet justly, exposed and will soon vanish from the belief of the native entirely. In short everything seems to be in a valuable state of progress.

But while looking at the bright side of the question, we must not forget the dark. In the beginning we paid to the Spanish government \$20,000,000 in lieu of certain improvements said to have been made by that power. We hoped to be able to establish a form of government among the natives entirely satisfactory to all. But, alas! Aguinaldo was trusted too far, consequently the downfall of our plans and hopes. When the first sound of strife rang out on the midnight air in the city of Manila it marked the beginning of a rebellion hard to repel. Ever since that memorable night when we drove the enemy from their strongholds in and around Manila, we have fought only as true Americans can fight, and for a cause unquestionably similar to that which fired the patriotic hearts of our forefathers and which led them to victory in almost every contest.

The support of our army requires somewhere near one million and a half dollars per day. The question wanting consideration is, "Will our new possessions ever progress far enough into the channels of civilization to pay for themselves?" A question decidedly hard to answer. Should we succeed in closing the rebellion and establishing a self-government under the supervision of our own, we may eventually develop new industries, which combined with those existing at present, may produce traffic sufficient to lift from our shoulders the bulk of expense incurred by the war.

The civil commission, now in session here, seems to be hopeful of the above. It is generally believed that their conclusions will

have a decided influence over the future of the Archipelago. Although they have made no declarations whatever, it is believed they will establish a form of government which will meet all present requirements and satisfy the native as well. The insurgent army is practically disbanded, and a great many are developing into true Amigos. The mountain tribes are not conquered nor never will be until time drives them into the interior of the island for means of existence. They have the idea that the Americans are as oppressive as the Spaniards and that we are only seeking them to enslave them and live from their labor. It is hoped that this delusion will soon be made way with, and that like a great many of their dusky brothers have already done, they will return and take up the modes of civilized life and become useful citizens.

The friar, means father in English, is unquestionably the greatest block to civilization we have to contend with. He believes in keeping the inhabitants in ignorance, because by doing so he holds open the gateway to his financial success. He charges the common native six pesos, \$3.00 American money, for baptizing a child; twenty pesos for officiating at a marriage, eight pesos for mumbling a prayer over the body of some human, who perhaps has died of starvation, brought on by his impoverishing hand. The very first step that should be taken towards improving the present state of the native is to remove the friars. Drive such agents of poverty away from the doors of the inhabitants of these islands, and you improve their financial standing to an astounding high degree. Then let every man of influence and high political standing, unite themselves into a body of liberty agents, and repeal the cruel laws of oppression now in force here. Let the words of the valiant Adams, "Give me liberty or give me death," be an inspiration to all liberty loving people to act wisely in all things; giving freedom to the oppressed, and in every way sowing the seed of a government none can criticize. By so doing the Philippines will be ours and ours to enjoy.

We had such a good time at the teachers' association Friday. Met with so many old friends and schoolmates; but the best of all, we saw that dear boy who has been more than a brother to us, but our absent sister whom we expected to see was not there, and again we had to yield to fate and hear him say no, Susie, wait another week, and your whim will be gratified; and we are waiting with the utmost impatience.

Ye scribe has learned since the wedding announcement of last week that the age of Parson Moore is 94 years. Ye scribe had the pleasure a few evenings ago of hearing Ada Williams, the peerless musician, render some choice music on the organ. Her singing springs from a voice that is clear and as it vibrates through the air, it strikes the listening ear with pleasure, and all those who have heard her play and sing have classed her the prima donna of this little village.

Ye scribe was sitting on the porch of Greenwade's Hotel on

Thursday evening, when who should drive up but Prof. Cord, wife and son Robert. It was an agreeable surprise. The Professor observed me reading a paper, he asked me the name of it, I told him it was THE HERALD. He said if I did not hand it to him quickly I would lose my job. I did so, and he enjoyed the contents of the dear old sheet, as he had not seen a copy for three or four weeks. The party stopped over night, and early in the morning resumed their journey towards Hazel Green.

Under the most favorable auspices the largest enrollment on the opening day of Hazel Green academy heretofore was 69, and the recent adverse circumstances led many to believe that never again could that figure be reached. But the friends of Prof. Cord sometime since avowed their determination vindicate his reputation as a teacher, and the result is told in the enrollment of Monday which was 90, 21 more than ever showed up on the first day. The C. W. B. M. by its action in transferring its principal patronage to the Morehead school was calculated to throw a damper upon the prospect of Hazel Green academy and Prof. Cord as well, and the professor's friends felt that since that gentlemen had spent 10 years in earnest endeavor to establish Hazel Green academy as the leading educational institution of Eastern Kentucky his efforts should meet with proper endorsement. Hence they went to work with a will, and every man, woman and child in this section became a living advertisement for the academy, and sang its praises of praise whenever and wherever opportunity offered. Nor is this all. Ere another week it is confidently hoped and expected that the enrollment will reach at least 125. Not only has the academy become a household word among the people here and hereabout, but its fame as a seat of learning has reached other states and territories, with the result that many will matriculate from states far away. Elsewhere we record the names of four who will matriculate this week or next, and there are more to follow. Let the good work go on, and let everybody put his or her shoulder to the wheel and give it a push.

If interested in horses, cows or sheep, take the Farm Journal. It is a wonderfully good little paper and you ought to take it. We can send THE HERALD one year and Farm Journal, nearly 5 years, remainder of 1900, all of 1901, 1902, 1903 and 1904, to every one who will subscribe for THE HERALD; both papers at the price of ours only 65 cents.

FOR SALE—A scholarship in the Commercial College of Kentucky University. By early application at this office some young man can save several dollars.

That the Powers case was a costly one there is no doubt, as here are some of the bills: The jurors were paid \$2 a day for their services and a dollar a day additional was paid for the board of each, making \$21 a week for each man. They were on duty 38 days, making a total cost of \$1,368 for jurors. The fees of the commonwealth's witnesses, including their mileage, will amount to over \$10,000. The trial was the most celebrated and prolonged in the history of the state. It began July 9 and lasted five weeks and six days. In all 161 witnesses were examined, and 3,515 pages of type-written testimony was given from the stand. There were thirteen lawyers for Powers and eight for the commonwealth. The first testimony was heard on July 13 and the last witness for the defense left the stand on August 13. There was also \$1,300 in Powers' pocket when he was caught while on his flight to the mountains.

The telephone line to Lee City will be in operation by the latter part of this week or the first of next. It is not yet known where the box will be located at Lee City, as it will be let to the highest bidder, but it will be of great advantage to the man who controls it, as he will not only get his own messages free but its location naturally brings more or less trade.

James S. Williams, of Sellers, Morgan county, was here Tuesday evening, en route home from Torrent, whither he had been to take his sister, Miss Mattie Phipps, who left on the evening train for Danville to attend the deaf and dumb institute, in which she has been a student for three previous terms.

John Tyler, one of the candidates for jailer who was here last Saturday, in a talk with the editor said he was sanguine of success. His neighbors and those most intimately acquainted with him say he would make a model jailer.

I am in a position that I can not be at home all the time, but when I am at home I stay until I do all repairing that is left at my office. So bring your watches, clocks, sewing machines and get them repaired at reasonable prices, and in good style. You can leave goods at my home. Guarantee satisfaction. J. T. GEVEDON.

Mr. Fitzgerald, paymaster of the Ohio and Kentucky railroad, passed through here Sunday, en route to Torrent, to take the train for Chicago, whither he had been summoned to the bedside of his mother, who was said to be dying.

"WINITAR"
ONLY WHITE TAR SOAP
IN THE WORLD.

Winitar Soap is a luxurious and purified toilet soap and superior to the old black tar soaps in every way. It contains all the healing and antiseptic properties of the black tar soap, with entire freedom from their objectionable features. It is neither towel nor wash bowl, for its lather is snow-white. It lathers in hard or soft water, far more freely than other tar soaps, and being 100 per cent. pure, outlasts any of "the faked" soaps of equal size. It contains much more glycerine than other soaps, and this together with its soft thick lather make it a king among shampoo soaps. In the treatment of skin, scalp and hair diseases, aggravated cases of dandruff, scald head, falling hair, etc., Winitar is highly recommended. Physicians recommend it for babies' baths, and in cases of chafe or heat rash, the soap is peculiarly efficacious. Ask your dealer for it.

The members of the local congregation and their neighbors will take care of all delegates and persons from a distance each night. Nothing will be sold on Sunday, and only fruits and other eatables on Friday and Saturday.

Noah Cisco, accompanied by his brother, J. S. Cisco, and his cousin, Alonzo Cisco, arrived here Saturday evening and will again be employed as assistant teacher at the academy. The two young men who accompanied him matriculated in the academy on Tuesday and will attend the next ten months. Apropos, Mr. Cisco informs us that in Morgan county the academy has an impetus this year surpassing anything in the past, and he thinks the attendance from that county will be quite large. But it appears to be so with all sections. Every precinct in this county will increase its patronage and on the whole the outlook is better than ever before.

How To Gain Flesh

Persons have been known to gain a **pound a day** by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

Annual Offerings for Church Extension and Ministerial Relief.

On the fourth Sunday, September 23rd, the Christian church at Hazel Green will make its annual offerings to these two most worthy causes.

There are no other two divisions of our church work that appeal more directly to our people. "Church Extension" helps to house the houseless congregations that they, afterwards, may become helpers in this work of the Lord.

"Ministerial Relief" helps to take care of disabled ministers and their families. These men have borne the heat and burden of the day, and we have entered into their labors. We would most prayerfully urge and persuade every member of our congregation to make a liberal offering to these works. Remember the date—Sunday, September 23. Earnestly in His name.
Wm. H. Cord, Minister.

"Circumstances Alter Cases." In cases of dyspepsia, nervousness, catarrh, rheumatism, eruptions, etc., the circumstances may be altered by purifying and enriching the blood with Hood's Sarsaparilla. Try it. Hood's Pills cure biliousness, headache.

Some Sensible Advice.

Communicated to THE HERALD:

Representing the majority and voicing the sentiments of all the citizens of Wolfe county in whose homes THE HERALD is a welcome visitor, I desire to make a few suggestions in regard to newspaper correspondents, and their duties while connected with a country newspaper. I do this in the interest of humanity, and without any ill feeling toward any of the numerous correspondents.

THE HERALD is for the benefit of all and not an advertisement for any family, or a means for them to place themselves prominently before the public. As one who has had some experience in newspaper work, I want to make these suggestions so that you may be enabled to profit by them. The public don't want to know what some country swain told his sweetheart on his last visit, or which particular rib he broke when he "hugged her good bye." They don't want to know what girl Bill Smith's son Sam is courting, or whether it is serious or mortal.

The public don't want to read a thesis on the visitors of correspondent's family and friends, especially if they are minus the quality.

Mr. Correspondent, don't devote a column to yourself and what you do. Don't announce yourself as a candidate, and write yourself a "pufl" sign your name de Plume, and think the public will remain ignorant of the fact.

Don't write about insignificant people; write the happenings of—and visits of prominent people to your vicinity. If you have a wedding to announce, do so, but don't say some one is going to get married—guess who. We know someone is going to get married, because if they didn't what would be our grandchildren and great grandchildren, etc. I say this for your good, take it easy and profit by it. Yours truly,

CORRESPONDENT.

Kelso Nickell, who was raised in this section but left here some 20 years ago and married in Wyoming, is expected here this week with son and daughter and two other young ladies, presumably sisters-in-law of Mr. Nickell, and the four young people will matriculate in Hazel Green academy for the next 10 months. Mr. Nickell visited relatives and friends here last year, and everywhere seeing the improvement wrought by the academy, at once determined to avail of its advantages for his own children.

Willie Caldwell, the 13-year-old son of Andy Caldwell, our fellow-countyman, on Wednesday left for Danville to enter the deaf and dumb institute at that place. He has never had the advantage of training of any kind until recently Charley Buchanan, the mute educated at Danville, has been giving him some instruction, and Charley says he is a remarkably bright boy. He thinks that with education and training he will prove an exception.

As Rev. W. E. Moore was riding along the road Monday afternoon, and just as he was in front of O. W. Cecil's residence, he was overtaken by Green B. Banks and Miss Nannie Ratliff, and requested Rev. Moore to marry them then and there in the middle of the road, showing him the marriage license. Mr. Moore then dismounted and made them man and wife. They then rode off as happy as two doves. Ova Swango and wife witnessed the ceremony.

OUR LETTER FROM THE ORIENT.

To the Hazel Green Herald.

PANQUE, P. L., July 30, 1900.

The island of Luzon is the largest of the Philippine groups. The fact coming before us, that we are in possession of a group of islands eight thousand miles from our seat of government, surrounded by several greedy powers, who are ready at any moment to gulp them; inhabited by a race of savage blacks, who are in a serious state of rebellion, and to make matters worse, who can not be trusted with self government is indeed a knotty problem. Our high officials do not seem to realize just where we are standing or just what we are doing. We seem to be drifting along with the tide regardless of every danger presenting itself.

Our attitude toward China is at present everything but pacific. Russia seems to be holding a dangerous hand; all in favor of our enemy, in fact we are on the very verge of a dangerous warfare. With these facts before us our position seems anything but pleasant. When Dewey won his laurels by destroying Montejos fleet and taking Manila, but few dreamed he was winding around us a net with threads of steel, and placing us in a position more critical than that of our forefathers in their heroic struggle against the power of a king at Lexington. Yet, notwithstanding our present predicament, we can not give way to a feeling of despair and lose all. The blow has been struck and we must fight it out. Our possessions are too wealthy to lose, our pride too great to relent. Our warfare is on, and we must support that power presiding over us, whether right or wrong. If we win, no doubt but what time assisted by untiring energy will bring us our reward.

The Philippines are unquestionably rich. The island of Luzon is noted everywhere for its hardwood timbers, hemp and rice; the finest mahogany, ebony and cinnamon species of the world are found here. The Manila rope is widely known everywhere, and is found in every state of the Union. The rice cultivation is steadily increasing, and since the oppressive powers of Spain have relinquished their hold upon lands and people, rice has advanced in price and demand. The sugar industry has become a paying investment; mills are going up all over the island, and the introduction of machinery is decidedly evident. Schools are being established in every known tongue and tribe. The greedy friar is being rudely, yet justly, exposed and will soon vanish from the belief of the native entirely. In short everything seems to be in a valuable state of progress.

But while looking at the bright side of the question, we must not forget the dark. In the beginning we paid to the Spanish government \$20,000,000 in lieu of certain improvements said to have been made by that power. We hoped to be able to establish a form of government among the natives entirely satisfactory to all. But, alas! Aguinaldo was trusted too far, consequently the downfall of our plans and hopes. When the first sound of strife rang out on the midnight air in the city of Manila it marked the beginning of a rebellion hard to repel. Ever since that memorable night when we drove the enemy from their strongholds in and around Manila, we have fought only as true Americans can fight, and for a cause unquestionably similar to that which fired the patriotic hearts of our forefathers and which led them to victory in almost every contest.

The support of our army requires somewhere near one million and a half dollars per day. The question wanting consideration is, "Will our new possessions ever progress far enough into the channels of civilization to pay for themselves?" A question decidedly hard to answer. Should we succeed in closing the rebellion and establishing a self-government under the supervision of our own, we may eventually develop new industries, which combined with those existing at present, may produce traffic sufficient to lift from our shoulders the bulk of expense incurred by the war.

The civil commission, now in session here, seems to be hopeful of the above. It is generally believed that their conclusions will

have a decided influence over the future of the Archipelago. Although they have made no declarations whatever, it is believed they will establish a form of government which will meet all present requirements and satisfy the native as well. The insurgent army is practically disbanded, and a great many are developing into true Amigos. The mountain tribes are not conquered nor never will be until time drives them into the interior of the island for means of existence. They have the idea that the Americans are as oppressive as the Spaniards and that we are only seeking them to enslave them and live from their labor. It is hoped that this delusion will soon be made way with, and that like a great many of their dusky brothers have already done, they will return and take up the modes of civilized life and become useful citizens.

The friar, means father in English, is unquestionably the greatest block to civilization we have to contend with. He believes in keeping the inhabitants in ignorance, because by doing so he holds open the gateway to his financial success. He charges the common native six pesos, \$3.00 American money, for baptizing a child; twenty pesos for officiating at a marriage, eight pesos for mumbling a prayer over the body of some human, who perhaps has died of starvation, brought on by his impoverishing hand. The very first step that should be taken towards improving the present state of the native is to remove the friars. Drive such agents of poverty away from the doors of the inhabitants of these islands, and you improve their financial standing to an astounding high degree. Then let every man of influence and high political standing, unite themselves into a body of liberty agents, and repeal the cruel laws of oppression now in force here. Let the words of the valiant Adams, "Give me liberty or give me death," be an inspiration to all liberty loving people to act wisely in all things; giving freedom to the oppressed, and in every way sowing the seed of a government none can criticize. By so doing the Philippines will be ours and ours to enjoy.
